

1 To purchase a product, click the red **BUY** button located at the top right of the page.

- 2 To view products available in the area where you're installing the Knox product, select the State/Province and type in your local fire department or responding agency. Then, click on the Search button.
- 3 A list of fire departments will appear. **Select** your responding fire department or public agency.

NOTE: For duplicate fire department names, pay closer attention to the last line of each fire department listing, which may indicate specific access programs that have specific products available for that particular program.

4 Once the selection has been made, you will be routed to the product category page. Product categories displayed may differ depending on your fire department.

- 5 To view products, click on a product category which will take you to the corresponding product page. Under the first section of the page, the system will indicate whether or not the product is available in the responding jurisdiction that you have selected. If the product is available, you will be able to view and configure the product.
- ⁶ To view the product, click on the **View** button which will take you to the configuration tool. Here you will be able to configure the product.

Please note: Accessories do not have a configuration tool.
